**ELECTRIC**

Demand Rate Customers (More than 50 kW Demand):
- Demand Rate Per Max Summer kW (June - September) $15.10
- Energy Rate Per kWH $0.064

Non-Demand Rate Customers (Less than 50 kW Demand):
- Energy Rate Per kWH $0.100

**STEAM**

For each kLb (1,000 lbs) $18.76

Condensate not returned: For all kLb not returned $1.79

**CHILLED WATER**

For each Ton-hour (12,000 Btu/ton) up to 3,000 full load hours. $0.335
For each Ton-hour (12,000 Btu/ton) over 3,000 full load hours. $0.096

*Full Load Hours = Ton Hrs. Used / Peak Tons*

Note: Steam, Electric & Chilled Water rates are adjusted monthly (up or down) to reflect fuel and purchased utilities market fluctuations.

**WATER**

For each kGal (1,000 Gallons) $3.25

**SANITARY SEWER**

For each kGal $5.28

Note: Sanitary Sewer charges for payment to the City of Columbia are calculated using actual water use for September 2013 through August 2014. The new rate and the new volume calculation begin with the October utility bill.

**STORM SEWER**

For each 100 square feet of impervious surface area $0.205

Note: FY15 Storm sewer charges for payment to the City of Columbia are based on impervious surface as of January 2014 and may be adjusted based on the final stormwater billing agreement with the City of Columbia.
Fiscal Year 2015
Utility Infrastructure and Chilled Water Connection Rates
Note: For planning purposes use 5.0% annual escalation for FY2016 and beyond.

**UTILITY INFRASTRUCTURE**

For new space added on-campus ($/GSF)  $17.47

**CHILLED WATER CONNECTION**

For load added to the campus chilled water system:
- 1-50 Tons Added ($/Ton)  $732
- 50-200 Tons Added ($/Ton - Graduated Scale)  $732 - $2,928
- 200+ Tons Added ($/Ton)  $2,928
