Active Enrollment Update

Kelli Holland provided an update for the active annual enrollment period October 17-28. Key enhancements and updates are:

- FSA debit and mid-year changes – employees may elect to use an ASI Flex debit card when making purchases with their Health Care FSA; opportunity for mid-year enrollments for new hires or family status changes
- Custom Network in St. Louis – Additional plan option for employees that live or work in the eligible counties
- 2017 premium costs – some medical insurance costs are changing
- Dependent eligibility verification – Every employee who claims a dependent on their insurance will have to supply evidence in February. This verification process is strategy aimed at controlling rising health care costs. The annual enrollment period will be a good time to update/change any dependents who need to be revised.

- Medicare eligible retirees and Medicare eligible dependents will be automatically enrolled in the UnitedHealthcare Group Medicare Advantage plan. Retirees will have an option to be defaulted into the base plan or buy-up to an enhanced plan. Prescription drug coverage is not changing and will remain with Express Scripts.
- Non-Medicare retirees and Non-Medicare dependents will be in a UM self-insured plan administered by UnitedHealthcare (PPO or Health Savings Plan). Prescription drug coverage is not changing and will remain with Express Scripts.
