It is the bidder's responsibility to ask questions, request changes or clarifications, or otherwise advise the University if any language, specifications or requirements of a RFB appear to be ambiguous, contradictory, and/or arbitrary, or appear to inadvertently restrict or limit the requirements stated in the RFB to a single source.

Any and all communications from bidders regarding specifications, requirements, competitive bid process, etc., should be directed to the University buyer of record referenced in this RFB. It is the responsibility of the person or organization communicating the request to ensure that it is received. To guarantee a timely response, such communication should be received at least ten calendar days prior to the bid opening date.

The University reserves the right to request clarification of any portion of the bidder's response in order to verify the intent. The bidder is cautioned, however, that its response may be subject to acceptance or rejection without further clarification.

The University reserves the right to make an award to the responsive and responsible bidder whose product or service meets the terms, conditions, and specifications of the RFB and whose bid is considered to best serve the University's interest. Unless within ten (10) days after serving such notice, such violations shall cease and satisfactory arrangements for correction be made, the University may terminate the contract by serving written notice upon the Contractor; but the liability of Contractor and Surety for such violation; and for any and all damages resulting therefrom, as well as from such termination, shall not be affected by any such termination.

7. **Contract Termination for Convenience:** The University reserves the right, in its best interest as determined by the University, to cancel the contract by given written notice to the Contractor thirty (30) days prior to the effective date of such cancellation.

**DETAILED SPECIFICATIONS**

1. **General Introduction:** The University of Missouri-Rolla (UMR) is seeking bids to contract for Natural Gas with a supplier of natural gas, whereby the supplier will supply and transport Natural Gas to the gate of the Distributor, AmerenUE, Rolla, Missouri at which time the University of Missouri-Rolla will accept title to the gas for delivery to UMR Residence Halls, Student Center and the UMR Power Plant. The supplier will assume responsibility for
delivery of such gas to the gate of the distributor, balancing with Interstate, Intrastate, and local distributor, and all other duties associated with administration and execution of the contract.

The UMR Residence Halls and Student Center estimated usage is listed in Appendix A. The UMR Power Plant usage varies because the Power Plant utilizes various fuels (wood, coal, and natural gas) based upon the market and needs of the University.

2. **Term of the contract:** The initial term of the contract will be July 1, 2007 through June 30, 2008 with four (4) one (1) year renewals at the University’s option. The University will give written notice of its intent to exercise any of the 1-year renewals at least 60 days prior to the end of the current term of the contract.

3. **Evaluation of Bids:** Final price will be determined by a weighted average of anticipated monthly volumes and the monthly NYMEX @ Henry Hub Futures Prices plus the supplier’s margin plus delivery to the Rolla City gate for the initial term of the contract.

Bid Basis I pricing evaluations will be based on the index price for the nominated volumes as listed in Appendix A. Bid Basis II pricing evaluations will be based on Item 1 fixed price for nominated volumes as listed in Appendix A. Natural gas purchases for the Power Plant will not be considered in the evaluations since there is no guarantee that a purchase will be made.

4. **Nymex Futures Price Lock-In:** UMR will notify the successful supplier of the time to lock-in a NYMEX Futures Price. UMR expects that this notification will occur within 30 days of acceptance of the low bid. However, UMR reserves the right to delay or cancel this notification based on market conditions. The NYMEX @ Henry Hub Futures Prices at the time of lock in will be used to determine the final price for the gas delivered during the period of July 1, 2007 through June 30, 2008. For any of the one (1) year renewals, the successful supplier will be notified and then confirmed in writing of the time to lock-in the NYMEX Futures Price.

5. **Interruptible Natural Gas Supply - Sales Arrangement:**
   a. Supplier agrees to sell Natural Gas (including transportation), to the University under an "Indexed Sales Arrangement", at a price based monthly in the first issue of the Inside FERC Gas Market Report for Pan Handle Eastern Pipeline. Supplier will make the FERC prices available for inspection by the University upon request.

   b. The "Index Price" plus a mark-up shall be effective for all purchases by the University during each month, and shall not be revised for any changes in the "Index Price" during the month.

   c. Supplier shall also offer natural gas to the University at a "Fixed Rate Sales Arrangement", a price quoted according to the Form of the Natural Gas Bid for the term of the Agreement as elected, to be re-established at the time of signing the Contract.

   d. The University will elect to purchase Natural Gas for UMR Residence Halls and Student Center at either an "Index Sales Arrangement" or a "Fixed Sales Arrangement" for the duration of the Contract.

   The "Fixed Price" will be for the first year of the contract with each of the remaining contract terms to be at the Index plus (as outlined in the Bid Form which is Nymex Index – the Basis Differential for P.E.P.L. + Supplier’s Margin + Cost of Delivery to the Rolla City Gate) with the option to negotiate a Fixed Price up to ninety (90) days prior to the beginning of each of the remaining contract terms.

   e. The basis Differential for P.E.P.L. will be fixed during the first year of the contract and for each term of renewal. The differential may be adjusted on an annual basis. Increases must be requested in writing to UMR Campus Procurement. Supplier must provide documentation to support any increase requested. Any decreases must be passed on to the University.

6. **Pricing:**
Nominated Gas Pricing: Volumes listed on Appendix A will be purchased at the Nymex Futures Price Index at the Panhandle Eastern Pipeline + Supplier’s Margin + Cost of Delivery to Rolla City Gate.

Imbalance: Pricing for actual consumption over/under nominated values will be based on the Average Monthly Gas Daily Price for the current month (PEPL) + Supplier’s Margin + Cost of Delivery to Rolla City Gate.

7. **Regulatory Driven Price Change:** Supplier shall be allowed to make changes in price per unit to reflect changes in their unit cost related to modification and regulation by any applicable governmental agency.

8. **Transportation Expense:**
   a. **Intra and Interstate Carriers:** Supplier agrees to arrange transportation in compliance with all applicable rules and guidelines of authorized purchases of natural gas through Panhandle Eastern Pipeline Company, or any pipeline operating company, or combination of pipeline operating companies who may offer transportation which is demonstrably more competitive, for transportation on behalf of its participants and with approval of Supplier at a price not to exceed the current applicable maximum tariff rate for firm or interruptible transportation, as requested by the University through the most direct route of transportation.

   With respect to any "Fuel Reimbursement" component of transportation, Supplier agrees to extend to the Participants the option, Fuel Reimbursement Percent or Fuel Reimbursement Rate, which results in the lowest transportation cost to the University.

   b. **Local Distribution Companies:** Supplier agrees to make best efforts to secure, on a timely basis, favorable transportation rates and terms commensurate with the character, volume, and conditions of the University.

   c. **Transportation Expense Increase/Decrease:** If the transportation expense that is charged to Supplier increases above the amount listed on Bid Form, Supplier must notify UMR in writing of the increase prior to increase being implemented (or within ten (10) days if price increase is implemented at the time of notice from pipeline provider to Supplier). The increase in cost to the University may increase no more than the amount of increase incurred by Supplier. Any transportation cost decreases to the Supplier must be passed along to the University immediately upon taking effect.

   d. Transporting Pipeline charges will be included in the monthly charge for Natural Gas and billed to the University by Supplier in accordance with the terms identified, which shall not exceed FERC tariff for Transporting Pipeline Transportation to the University’s delivery point.

   e. **Fuel for P.E.P.L. charges:** The Fuel for P.E.P.L. percentage as listed on the Bid Form, must remain unchanged for the first term of the agreement. After the first term of the agreement, if the fuel for P.E.P.L charges that is charged to Supplier increases above the percentage listed on Bid Form, Supplier must notify UMR in writing of the increase prior to increase being implemented (or within ten (10) days if percentage increase is implemented at the time of notice from pipeline provider to Supplier). The increase in percentage to the University may increase no more than the amount of increase incurred by Supplier. Any transportation cost decreases to the Supplier must be passed along to the University immediately upon taking effect. A copy of the tariff showing the increase/decrease must be provided to the University with notification of percentage increase/decrease.

9. **Delivery Point & Pressure:** The delivery point(s) shall be the interconnect between Transporting Pipeline and the Local Distribution Company. The Natural Gas Pressure at the delivery point shall be sufficient to effect delivery. The Supplier shall not be required to install pressure regulating facilities nor shall Supplier be liable for pressure deficiencies of the local distribution company.

10. **Measurement:**
    a. The unit of measurement is one (1) MMBtu, and the quantity of Natural Gas purchased and paid for by the University shall be computed at the delivery point in accordance with the Panhandle Eastern Pipeline Company policies and shall be in accordance with all applicable state or federal laws as to Natural Gas measurement.
b. The University may at its own expense install check meters but measurement of Natural Gas purchased shall be by the Missouri Public Service Company meter only. The University's check meters shall be available for inspection at all reasonable times.

11. **Invoicing:** A separate invoice for each facility will be required. Supplier invoice shall be mailed to:

   The University may inspect any charts and measurement books and records relating to the University’s account in the supplier’s possession at all reasonable times. The quantity of Natural Gas billed shall be that delivered to, accepted by, and measured by the University’s supplier. The University shall have the same rights that the Supplier has to inspect its Transporting Pipeline’s measuring devices, methods, and computations, and Supplier shall fully cooperate with the University in obtaining such inspection and information.

   The Supplier shall pay all pipeline charges. LDC charges should be paid by the supplier and invoiced to the University, if possible.

13. **Accurate Books of Account; Right to Inspect and Audit:** Supplier shall keep accurate books of account and records covering all matters related to the calculation of Administrative Fees, all of which books and records shall be kept separate from Supplier's books and records which are unrelated thereto. 14. **Payment:** Buyer shall pay Supplier the full amount of the Supplier’s invoice in immediately available funds within thirty (30) days after receipt of Supplier’s invoice. Payment shall be made as specified in Supplier’s invoice. The University will be financially responsible for actual gas consumed, and not for nominations placed by the Supplier.

15. **Service Amendments:** In the event any additional buildings at UMR are changed over to Natural Gas during the period of this agreement, Supplier agrees that such building(s) shall have the option to be included in this agreement, if allowable by tariffs.

16. **Quantities:** The quantity of natural gas set forth in the Bid Form is an estimate only. Quantities consumed will vary depending on weather variations and hot water use in the buildings.

17. **Quantity Measurement:** Measurement of BTU content and testing of the gas delivered under this contract must be done according to the applicable provisions specified in the FERC gas tariff of the delivering pipeline, if applicable, or according to the standards and procedures otherwise established by the delivering pipeline.
